[she has] an accurate and acute feeling for language, and pauses, and silence.' Guardian Lena's seemingly contented family life is coming apart at the seams. Her husband Ben has been having an affair with the au pair, and as their relationship slides he retreats more and more into his work in a science lab. Under the Human Rights Act, British courts are for the first time empowered to review primary legislation for compliance with a codified set of fundamental rights. In this book, Aileen Kavanagh argues that the HRA gives judges strong powers of constitutional review, similar to those exercised by the courts under an entrenched Bill of Rights. The aim of the book is to subject the leading case-law under the HRA to critical scrutiny, whilst remaining sensitive to the deeper constitutional, political and theoretical questions which underpin it. Such questions include the idea of judicial deference, the constitutional status of the HRA, the principle of parliamentary sovereignty and the constitutional division of labour between Parliament and the courts. The book closes with a sustained defence of the legitimacy of constitutional review in a democracy, thus providing a powerful rejoinder to those who are sceptical about judicial power under the HRA. In *Right, Power, and Faquanism*, Tong Zhiwei proposes that right and power are ultimately a unified entity named faquan, and that the purpose of law should be to establish a balanced faquan structure and to promote its preservation and proliferation. Now in its second edition, the MHRA Style Guide is an indispensable tool for authors and editors of scholarly books, contributors to academic publications, and students preparing theses.
