John Deere: A History of the Tractor Aug 05 2020 To farmers the world over, there's no tractor like a John Deere. The history of Deere's development of the farm tractor and its fight to be number one in the business is a fascinating tale - told here in complete detail through extensive research and interviews with the designers, engineers, dealers, and farms that made Deere famous. Author Randy Leffingwell traveled across the country photographing tractors from New England to California,

bringing together hundreds of stunning color photos along with rare archival images. The full line of Deere tractors are presented, from early experimental models to the Waterloo Boy, the Model D, the Johnny Poppers, modern four- and six-cylinder models, and everything in between. Packed with colorful stories, anecdotes, and never-before-seen illustrations, John Deere is the ultimate tribute to the legendary American tractors.

Compact Utility Tractors Sep 25 2019 Compact Utility Tractors, or CUTs, are cute little cutters! As farming became more refined so did the needs of tractors. The answer was a smaller, more maneuverable and fuel-efficient tractor with a variety of implements and attachments. With this focus on special needs, attachments became available such as plows, disc harrows, mower decks, cultivators, spreaders, snowblowers, and more. They have become a necessary utility for farmers, orchards, small construction jobs, and landscaping/maintenance for estates, parks and golf courses. At the forefront of this evolution was the Farmall Cub and John Deere Model L. Then came the Japanese invasion; a new kind of tractor by companies such as Yanmar and Kubota. These four-wheel drive machines were rugged and tough and used a variety of hydraulically powered attachments. American companies like John Deere, International Harvester, and Massey Ferguson built their own their own four-wheel versions. Today's compact tractors, such as the Kubota BX series, Massey Ferguson's GC series, and the John Deere 3000, offer an even larger selection of implements for special purposes.
